

Quality Service Charter

February 2024

Preamble

Primary HealthCare (PHC) strives to respond sensitively to the dynamic needs of its clients. Over the years it sought to change, adapt, plan resourcefully and design its services in-line with the health demands posed by the community it serves.... people with diversity in culture, colour, language, age, gender, values, beliefs and above all with a variety of health needs.

The ideology and dedication of its professional, skilled, and talented human assets have driven Primary HealthCare to take giant steps in the best interest of the clients, committing itself to various initiatives, thus, taking quality of care to higher levels each time, transforming a patientcentred care philosophy to an integrated person-focused care, and mobilising the services closer to the clients' habitats.

The Quality Service Charter (QSC) is another golden milestone in the quality service history of Primary HealthCare which will support us with an excellent overarching guiding tool to ensure our goals are constantly being fully accomplished. The Quality Service Charter will help us identify overlaps, gaps and potential pitfalls in our services, and guide us to take proactive actions to always guarantee optimal service satisfaction for our clients, along with giving an achieving sense of fulfilment and job satisfaction to our employees.

Primary HealthCare staff members are committed to respect and comply with the principles of this Quality Service Charter. They understand and abide by their obligations while our clients are expected to reciprocate in carrying out their responsibilities and cooperate to ultimately ensure each other's rights are always safeguarded and respected.

1. Who We Are & What We Do

We are the Primary HealthCare, and we provide primary healthcare services for the population of Malta and Gozo. through our multiple sites distributed in different locations. Our mission states that:

The Primary HealthCare's multidisciplinary TEAM is committed to excellence; to the highest possible level and quality of integrated primary health care service delivery, while we continue to explore new avenues to increase patients' accessibility further in the community.

Our services are accessible according to the time schedules included in this Charter. ***If you are not sure how to access a particular service, you can always seek help by phoning the Client Support Centre on 21231231.*** Our public health services/ clinics are physically accessible to persons with disabilities.

2. Customers

Our clients are the entire population. Health care services are free of charge at the point of use to Maltese citizens and refugees. EU citizens are entitled for free immediate care, such as, General Practitioner (doctor) service. Services can also be accessed by ineligible clients against a payment.

3. How to Reach Us

In view that Primary HealthCare offers its services from various health venues on the Maltese Islands, Figures 1 - 4 provide useful information about these venues to help you access our medical, nursing, and other services delivered by health professionals.

For assistance you may call 'The Client Support Agent' on 21231231 to provide you with more information .

You may also refer to '**Our Services**' Section for more detailed information about our services.

Important Notice

Qormi Health Centre is currently under maintenance and general upgrade to enhance its quality standards and expand its services to meet our clients' needs

Clients residing in the catchment area that includes Qormi, Siggiewi and Zebbug are being informed that on a temporary basis they can access services from other Health Centres as shown in Table 1

Furthermore, Clients who were already given an appointment from Qormi Health Centre before the onset of the upgrading process are to attend Floriana Health Centre and B'Kara Health Centre.

For further guidance contact Client Support Centre on 21231231

Note

Child & Young People Services are offered by Mental Health. For more information kindly access this link:

[Child and Young People's Services \(gov.mt\)](https://www.gov.mt/child-and-young-peoples-services)

Our services can be accessed in the following ways:

1. As an emergency
2. Walk-in patient in case of an immediate health need, or
3. By an appointment

You may contact Primary HealthCare for information on our services and how to access them by calling our Client Support Centre on 21231231 or visit our website at:

<https://www.primaryhealthcare.gov.mt>

To access any of the PHC services you must bring with you an identification document and any other relevant records, example referral ticket, record card etc. Maltese and EU citizens must present their ID card/ Baby book. Non-EU clients must present at the reception desk a copy of their pay slip and may opt to cover the salary and other unnecessary details.

Minors under sixteen years must have the consent of a parent/legal guardian to receive a healthcare service/intervention. When a service user has reached the age of 16, s/he has the right to accept or refuse clinical attention/ care/ treatment, provided that the clinician feels that the client/patient has a sufficient level of maturity and understanding to do so. It is in your health interest to comply with the above to guarantee quality service by the clinician.

You may lodge a complaint/complement by contacting Customer Care on 25576100 or email it at customercare.phc@gov.mt Our website also has the facility of a suggestion box to help you communicate your complaint/complement.

Our Services

Services delivered by the Medical Practitioner

General Practitioner (GP) Service

GP service is offered from all the Health Centres and includes treatment and advice on any condition a patient/client may be suffering from. For emergency and immediate care no appointment is required to see the GP and the waiting time may be shorter outside the morning busy hours.

The service includes:

- Minor medical and surgical interventions
- First aid and basic life support in emergency situations
- Health Promotion advice and primary prevention
- Home visits if circumstances permit and are justified such as in emergencies, bedbound patients, the frail and severely disabled.
- Investigations (blood tests, urine tests, X-Rays, ECG) as considered necessary by the doctor
- Referral to a consultant by the General Practitioner if necessary.

Note: Medical certificates for absence from work are issued from 8am to 11am except for shift workers in which case a certificate may be issued at any time before their shift is due to start.

Table 5 illustrates the times when GP service is available at the Health Centres.

Documentation:

It is **very important** that a Maltese person or a European citizen presents his/her Identification Card, while a non-European citizen who resides in Malta must present his/her pay slip/ working permit and passport.

Health Centre	Day	Time	Important notes
		immediate care (<i>not considered urgent but would benefit from early intervention due to pain etc.</i>)	
Qormi (Temporary closed for maintenance and upgrading)	Monday to Friday Saturday	8:00am to 8:00pm 8:00am to 1:00pm	From 8.00pm to 8.00am (Mon to Fri), from 1:00pm to 8:00am (Sat) and on Sunday and public Holiday, all clients/ patients residing in the catchment area of Qormi Health Centre can go to Floriana Health Centre
Rabat	Monday to Friday Saturday	8:00am to 8:00pm 8:00am to 1:00pm	From 8.00pm to 8.00am (Mon to Fri), from 1:00pm to 8:00am (Sat) and on Sunday and public Holiday, all clients/ patients residing in the catchment area of Rabat Health Centre can go to Mosta Health Centre
Victoria (Gozo)	Monday to Sunday & Public Holiday	8:00am to 8:00pm	From 8.00pm to 8.00am all clients/ patients can go to Gozo General Hospital (GGH)

The GP service is also offered in the Community Clinics (Bereg) that are distributed in different localities throughout Malta and Gozo. This service is by appointment and provides basic medical caring services. Complicated medical issues are best dealt with at the health centre as time is very limited here. For more information, please refer to Figure 5.

GP home visits are offered to clients/ patients only if circumstances permit and are justified such as in emergencies, bedbound patients, the frail and severely disabled. For home visits, when possible, please phone before 9:00am, giving us the following details:

- Your name and age
- Your address with clear directions/landmarks
- Your ID card number
- Your telephone number
- Some details on your condition.

An adult, preferably one of the parents/guardians, should be present when the doctor is called to examine a child.

When calling, our operator may forward your call to the doctor to give further details.

In an emergency, please keep calm and before you hang off make sure that the operator/doctor has **ALL** the details.

GP Appointment Clinic (GPAC)

The GP Appointment Service has been running since 2021 in the Community Clinics within various localities in Malta and is being extended in the Health Centres. The aim of this service is to provide high quality consultation time during which clients can discuss their various issues, which are normally dealt with by a GP.

It is an appointment-only clinic and apart from offering high quality consultation time, the clinic also serves to foster follow up and early detection of various ailments. **Any adult person can fix an appointment for this clinic by calling on 21231231.** The service is not run on public holidays. You may refer to Table 6 for more information.

Table 6: GPAC Clinic

HC/Community Clinic	Weekday	Service	Time
B'Kara	Wednesday & Friday	GP Appointment Clinic	9.00pm - 1.00pm

Xewkija (Gozo)	Monday & Wednesday	GP Appointment Clinic	3:00pm – 8:00pm

Long Covid Clinic (LCC)

The Pandemic which affected the world in 2020 left repercussions. One notable repercussion is the Long Covid Syndrome, which is experienced by a minority of patients with COVID. In this respect, PHCD has, as of May 2022, initiated a Long Covid Clinic (LCC) to follow-up these patients accordingly.

The LCCs are held in three community clinics, namely Mellieha, Pieta and Marsaxlokk Community Clinics. Clients are either referred from other professionals or they can make an appointment themselves. The LCC is part of the GPAC. Besides offering follow-up of patients

with Long Covid, this clinic allows for patients to be referred to the necessary channels if the need arises.

Services delivered by the Medical and Nursing/Midwifery Team

Adult Down Syndrome Clinic

The Adult Down Syndrome Clinic (ADSC) is a clinic intended for individuals with Down Syndrome aged 16 years of age and above. The ADSC team is composed of a Specialist in Family Medicine and Nurse/s allocated to run the clinic. The clinic focuses on the needs of adults with Down Syndrome and serves as a focal reference point of support for clients, their careers, and their caring physicians.

Service is given at Zabbar Community Clinic and Hamrun Community Clinic by appointment.

Referral to the clinic may be through self-referral, the caring General Practitioners and/or caring institutions and Non-Governmental Organisations by e-mail to adsc.phc@gov.mt or calling 21231231

Documentation:

Identification card/ Baby book and an Appointment Letter/ Appointment by SMS and Treatment Card/ Schedule V

Zabbar	Monday (every fortnight)	13:00 - 17:00
Hamrun	Tuesday (every fortnight) Saturday (every five weeks)	13:00 - 17:00 08:00 - 13:00

Diabetes/ Specialty Clinic

The Diabetes Clinic caters for patients with diabetes. Here, the patients are monitored for their chronic condition and its complications. Diabetes Care is a multidisciplinary professional team approach, mainly Doctors, Nurses, Podiatrists and Ophthalmologist. Patients are seen against a standard protocol which includes that all patients undergo yearly, comprehensive foot screening by a podiatrist at their respective Health Centres. If pathology is detected, the patient is subsequently referred for vascular assessment, with the possibility of further specialised assessment by a vascular surgeon if necessary. They also undergo yearly screening for Diabetic retinopathy in addition to an annual ophthalmic referral for full assessment by Ophthalmologists.

Referral is by a GP or from the Diabetes Clinic at Mater Dei Hospital. An appointment is required to attend the Diabetes Clinic and the Specialty Clinic. For more information on the opening times of the Diabetes Clinic, kindly refer to Table 8.

Documentation:

Identification Card, Referral Ticket by GP for new cases, Appointment letter/ Appointment by SMS, Treatment Card.

Ear syringing

Ear syringing is carried out to remove wax from the ear using water. It is important that the client/ patient applies the treatment prescribed to him/her and follows the directions given by the doctor prior to ear syringing. This service is by appointment and offered from the Health Centres as shown in Table 9.

The client/patient needs to inform the doctor if:

- You have a perforated ear drum.
- You suffer from peanut allergy or any other allergy.
- You have a grommet (a small tube inserted by an ear specialist in your eardrum).
- You have been operated on the ear in the past.

- You suffer from vertigo (dizziness caused by problems originating from the ear balance mechanism).
- You are suffering from an ear infection.
- You have any other ear condition the doctor should know.
- You feel pain/dizziness at any time during the procedure.

Documentation:

Identification Card. Prescription Note and/or Referral Letter by GP.

Mosta	Monday to Friday	11:00am – 12:00MD
Paola	Monday to Friday	11:00am – 11:30am
Rabat	Monday to Friday	10:20am – 10:40am
Victoria (Gozo)	Monday to Friday	10:00am – 11:00am

Medical Consultant Clinic (MCC)

The patients eligible for this medical consultation are those referred by the general practitioner (GP), either from the Health Centre or their private GP. An appointment is required for this clinic. Waiting time for an appointment is very variable and varies from one Health Centre to another, depending on the demand in the catchment area. For more information regarding the opening times of the MCC, kindly refer to Table 10.

The Medical Consultation Clinic entitles you to

- Provision of consultant medical opinion
- Referral to Schedule V clinic
- Access to all specialized investigations at Mater Dei Hospital, example CT scans, MRI, Echocardiographs, etc.

Documentation:

Identification Card, Schedule V Card (if available), Appointment Card/ Appointment by SMS and in the case when you are attending the clinic for the first time a Referral Ticket by a GP is also needed.

Ophthalmic Services

Primary eye care is the essential building block for prevention and monitoring of eye-related condition in our community. The **Primary Eye Screening Centre of Excellence**, located at Floriana Health Centre, provides a high quality holistic primary eye care, run by our highly trained healthcare professionals. Services offered from the Centre of Excellence include:

- **Refraction Clinic**

A qualified optometrist will check your eyesight and may prescribe spectacles if indicated.

- **Glaucoma Screening**

If detected early, glaucoma usually can be controlled, and severe vision loss prevented. Through this service we aim to detect glaucoma at an early stage, preserving the quality of life.

- **Glaucoma Clinic**

This service runs specifically for individuals already diagnosed with glaucoma and offers periodical eye monitoring.

- **Diabetic Retinopathy Clinic**

This service is specifically designed for diabetic patients and is part of a holistic approach for the early detection of diabetes-related complications.

- **Adult and Children Optometry Clinic**

This service is delivered to clients according to a schedule illustrated in Table 11

Clinics are also available from the other Health Centres as indicated in Table 11.

You can be referred to the ophthalmic services by your private doctor, the Health Centre doctor, Diabetes Clinic or the hospital. School children may be referred by the School Health Services. For glaucoma screening, self-referral is also acceptable. Eye care services are by appointment.

Documentation:

Identification Card, Pink Form (if available), **Schedule V Form (if available)** and Referral ticket to attend the Refraction Clinic.

Rabat				Ophthalmic services from Mosta/Floriana HC

Point of Care (POC)

This clinic is intended for patients that need treatment with warfarin for a very long time due to their medical condition. Patients may now benefit from INR testing in specialised clinics set up in the health centres themselves. During the visit, INR testing is done from a very small amount of blood taken from one of the fingers. The machines in use give the result in a few seconds. One may discuss any problems or queries with the doctor and is also given a prescription for warfarin there and then.

Patients that are chosen to make use of this service are the ones that have a stable INR level. They may not be suffering from any condition that may give rise to large variations in the INR reading. This service is given by appointment and provided from the health centres as in Table 12.

Documentation:

Documentation includes Identification Card and the Yellow ACC booklet

Table 12: POC Clinic Times

Health Centre	Day	Time
B'Kara	Tuesday & Thursday	8:00am – 10:20am
Cospicua	Monday & Friday	8:00am – 11:00am
Floriana	Monday, Wednesday & Friday	8:00am – 11:00am

Mosta	Monday to Friday (not on Pub. Hol)	8:00am – 10:00am
Paola	Monday to Friday	8:10am – 11:50am
Rabat	Monday to Friday	8:00am – 10:30pm

Schedule V Clinic

The clinic is attended to by a Medical Consultant. You may attend this clinic if you are entitled for free medication for the treatment and control of chronic medical conditions as listed in the Schedule V of the Social Security Act, and you need to either change the medical treatment or add new treatment to your medication list. Attendance to this clinic is by an appointment.

For changes or additions to medication related to High Blood Pressure and High Cholesterol, you may speak to the General Practitioner at your nearest Health Centre (as a walk-in) or Community Clinic (with an appointment).

Schedule V cards issued from the Departments of Surgery, Gynaecology, Ophthalmology and Psychiatry at Mater Dei Hospital can only be renewed by the same Department and cannot be renewed at the Health Centre.

If you are still attending the Medical Outpatients Clinic at Mater Dei Hospital on a regular basis, your Schedule V card issue and renewal should be obtained from your consultant at the Medical Outpatient and not from the Health Centre.

For more information regarding the opening times for the Schedule V Clinic, kindly refer to Table 13.

Documentation:

Identification Card, Schedule V Card (if available), Appointment Card/ Appointment by SMS and in the case when you are attending the clinic for the first time a Referral Ticket by a GP is also needed.

Scoliosis Review Clinic

This clinic takes place at Tarxien Community Clinic on Tuesdays and Thursdays in the afternoon. Referrals to this clinic are made by doctors and nurses from the School Health Service following scoliosis screening in schools, as well as by doctors from Health Centres or private practice. The GPs running the clinic monitor children and adolescents with mild scoliosis on a regular basis and offer advice for the condition.

Documentation:

Identification Card (if available)/ Parent/Guardian Identification Card and Referral Ticket

Well Baby Clinic – 1st and 2nd visit

The Well Baby Clinic (WBC) serves the purpose of clinical examination and developmental assessments of health of babies and infants, to achieve this purpose, three routine visits are carried out. Doctors from the Primary Child Health Unit carry out Well Baby Clinics in all Health Centres according to a pre-planned timetable.

The first visit: Babies born at MDH will receive an appointment for the well-baby check-up at 8-12 weeks of age. This is combined with an appointment at the Immunisation Clinic for the first doses of vaccine according to the National Immunisation Schedule. This service is also offered to babies born in private hospitals or at home. In such cases, parents may phone the Client Support Unit on +356 21231231 or send an email on wellbabyclinic@gov.mt requesting an appointment.

The second visit: Parents who attended with their babies at the WBC for the first visit, are contacted and asked if they wish for their child is assessed again at 8 months of age for the second check-up. If the answer is positive, a second appointment will be given.

Documentation:

Baby Book (given at the post-natal wards), Mother's antenatal card (Blue Card), Parent/Guardian Identification Card or Passport and the Appointment letter/ Appointment by SMS

Well Woman Clinic

The aim of the Well Woman Clinic is to offer a professional service to the female population within the community, which is both accessible and efficient. This aim is achieved by offering four main categories of services namely: Gynaecological service, antenatal care, postnatal care and aiding with the National Cervical Screening service.

Documentation:

Gynaecology Clinics: Identification Card and Referral Ticked by a GP.

Antenatal Clinics / Postnatal Clinics : The Identification Card and the Antenatal Card (blue card).

Health and Well-Being Clinic

The Health and Well-being clinic offers clients the opportunity to consult with a doctor in the community about issues related to genitourinary medicine. The clinic aims to promote the client's

overall health and well-being, by offering investigations as well as counselling and health promotion interventions. Details of the service are available in Table 14

Table 14: Health and Well-Being Clinic

Locality	Day	Time

Mellieha	Thursday	8:00am – 1:00pm
Victoria Gozo	Saturday	8:00am – 1:00pm

Services delivered by the Nursing/ Midwifery Team

Assessment of Well-Being and Opportunistic Screening Clinic

This clinic aims to provide a holistic assessment of the client (18 years of age and older) to educate and empower him/her to a healthier lifestyle through health promotion, opportunistic health screening and disease prevention intervention. The scope is to identify the risk factors conducive to ill health, identify undiagnosed existing health issues, educate, and provide access to an integrated multidisciplinary primary health care team for better continuity of care. The clinic acts as the natural focal point for these networks. In addition, the nurse-led clinic supports the most common chronic diseases and conditions such as hypertension and diabetes. For more information refer to Table 15.

Assessment of Well-Being Clinics is carried out within the Community Clinics on appointment basis. To set an appointment you may phone the Call Centre at 21231231 or 21222444, or email customercare.phc@gov.mt.

Documentation:

Identification Card/ Baby book and Schedule V document.

Midwifery Services

The midwifery services include the Maternal Health Clinic Screening and Advice as well as the Parent and Baby Primary Health Support Clinic.

The Maternal Health Clinic Screening and Advice: This clinic provides an antenatal and postnatal midwifery service to women prior to their check-up by the obstetrician. Women's personal health assessment, health promotion and helping women to maintain a healthy lifestyle are important matters discussed during this appointment.

Parent and Baby Primary Health Support Clinic: Mothers who undergo Caesarean section at MDH and require removal of sutures are given an appointment from the postnatal wards at MDH to attend this clinic. Moreover, parents/guardians may call this clinic, which is attended to by a midwife, for advice as follows:

- Advice may be given over the phone
- Or alternatively, the client may opt to attend the clinic in person, by appointment as necessary.

Documentation:

For both Clinics: The Identification Card and the Antenatal Card (blue card).

Plaster Service

Plaster application may be advised by the Health Centre General Practitioner following an X-Ray. Plaster service is delivered according to schedule at Table 18.

Table 18: Plaster Application opening schedule

Treatment Room Services

Due to the busy schedule of services that are delivered daily by nurses from the *Treatment Room* (for opening times see Figure 1), different time slots are given to patients/clients to manage more resourcefully the various services. Services provided by the nursing staff in the treatment room are: Administration of injections, wound care/removal of sutures and venepuncture. Emergency services, including nebulizer therapy, do not require an appointment. The leg ulcer clinic is by appointment as shown in Table 21.

It is therefore very important for a client/ patient accessing a specific service at the Treatment Room to comply with the appointment given. In case of any query one can always phone the Client Support Centre for further assistance.

Information about the Influenza vaccination and Covid-19 booster dose to adults is illustrated in Table 22.

An emergency case may need the assistance of a GP. For this reason, it is also important to note the times when the GP is on duty at the Health Centre (see Table 4).

Documentation:

Identification Card/passport, Discharge Letter (if available), Treatment Card/Discharge referral letter (if followed up from Tissue Viability Clinic or Dermatology MDH), doctor referral note (for administration of injection etc).

Gzira	Musculo skeletal, conditions and facial palsy	Monday – Friday	7.45am to 2:45pm

Podiatry services focus on the preventive care and treatment of foot conditions. The Centre of Excellence Podiatry Services offers core podiatry services to the residents of the Birkirkara Health Centre catchment area and specialised services to all Maltese residents. Specialised services include:

– **Biomechanical Assessment and Gait Analysis Clinic**

This clinic offers a detailed assessment of the biomechanics of the lower limb and gait analysis through visual and computerised means.

– **Lower Limb Vascular Clinic**

A thorough vascular assessment is carried out to patients with the aim to diagnose and manage peripheral arterial disease. This service is offered in collaboration with the vascular team at Mater Dei Hospital.

– **Nail Avulsion Surgery**

A dedicated clinic for the treatment of pathological nails which require nail avulsion.

– **Podopaediatrics Clinic**

A specialised clinic dedicated to the examination and treatment of children with foot problems. Children under 16 years of age can attend this clinic accompanied by an adult.

– **Rheumatology and Musculoskeletal Podiatry Clinic**

A specialised clinic to prevent and manage foot problems secondary to rheumatology and musculoskeletal conditions.

– **Diabetic Foot Screening**

People living with diabetes are screened routinely to prevent, diagnose, and manage early signs of diabetic foot complications.

– **Claudication Clinic**

Intermittent claudication is the main symptom of vascular disease in the lower limb and is associated with the risk of cardiovascular disease and lower limb deterioration. In this clinic, patients with this symptom undergo a thorough vascular assessment and are enrolled in a monitoring program to ensure timely fast-track referral to the Mater Dei Hospital Vascular Surgery Unit, when required. The ultimate goal of this clinic is to decrease the risk of limb loss. Referral for this clinic can be implemented by general practitioners, podiatrists, and other health care professionals.

– **High-Risk Foot Biomechanics Clinic**

In this clinic, patients with diabetes at risk for foot ulceration and patients with rheumatoid disease with severe foot deformity, undergo a detailed biomechanical examination with the aim of preventing tissue loss and amputation. Referral for this clinic can be implemented by general practitioners, podiatrists, and other health care professionals.

Services are also offered by appointment from the other health centres and various Community Clinics. Details of services delivered from the health centres are available in Table 30.

Documentation:

The Identification Card and a Referral Ticket when attending to the vascular clinic and the Identification Card/ Baby Book if attending to the paediatric clinic

Speech Language Centre

These services focus on development and/or acquired difficulties related to communication, language and swallowing difficulties. Services also cover the national LENTI screening for Autism. SLP services are offered on an open-referral system and by appointment and delivered from various sites, such as, Health Centres, Community Clinics (Bereg), schools or in the home as recommended by the speech language pathologist. Such services include:

- Language delay and impairments;
- Difficulties in speech production (articulation, phonology and intelligibility);
- Communication difficulties associated with hearing and sensory impairments;
- Communication problems associated with learning disability, autism spectrum disorder and syndromes;
- Fluency problems
- Reading and writing difficulties related to specific learning difficulties;
- Voice disorders, including dysphonia and laryngectomy;
- Neurological conditions (e.g. head injuries; stroke and conditions such as Parkinson's, Huntington's and Dementia);
- Swallowing difficulties (both children and adults).

For opening hours of services delivered in the *Health Centres* refer to Table 32. For opening hours of services delivered in the *Community Clinics* refer to Table 4.

For services in Public schools and Church schools, one can approach the SLP in the nearest clinic and will be directed accordingly

Documentation:

Identification Card/ Baby Book and Referral Ticket.

Important Note: The Speech Language Pathology at Luqa is currently under maintenance and general upgrade to enhance its quality standards. Services from Luqa are temporary being delivered from Sta Venera Community Clinic/Berga. For more information contact the Support Centre on 21231231.

Services delivered by a Multi-professional Team from PHC

Bloodletting Service (venous)

If you are undergoing investigations and you need blood tests, then you are eligible for this service. Clients/ patients must have the blood investigation requests already ordered by their private general practitioner, Health Centre general practitioner or from hospitals. You need an **appointment** to access this service.

This service is also offered to patients on anticoagulant treatment such as warfarin.

You will find more information about this service at Table 33, 34 and 35.

Documentation:

- *Blood investigations:* Identification Card and Referral Letter from a GP
- *Patients on anticoagulant treatment:* Identification Card and Anticoagulant Booklet

Telemedicine

Telemedicine provides clients with on-line health information/services, through Telemedicine Client Support Centre on telephone number 212224444. It operates 24 hours daily, from Monday to Sunday including Public Holidays. Both telephone and video consultations are carried out. At present Telemedicine offers medical and speech language pathology services but will soon expand to include the service of other health professionals, such as, podiatrists, physiotherapists, and possibly medical consultants. Currently Telemedicine offers:

- Medical advice, 24/7 to all patients in Malta and Gozo, including but not limited to COVID-19 positive patients in the community
- Reassurance for patients' symptomatology
- Client-triggered follow-up service for clients on quarantine protocols
- Guidance to patients to access all services currently available in our community
- Vetting of domiciliary visits by liaising with Health Centre doctors.

- Booking of blood investigations and medical advice regarding investigation results. GP advice regarding patients in homes for the elderly and in other institutional community residences

Special Units

Community Oncology Survivorship Clinic

This is a community clinic for patients who have had recovered from Cancer but require monitoring to detect early recurrence. As more patients live beyond cancer, their needs are often better met by a community GP who can treat patients beyond just the detection of cancer recurrence.

Patients are referred by their oncologist to specifically trained GPs, according to agreed protocols. Refer to Table 36 for more information about this clinic.

Table 36: Community Oncology Survivorship Clinic opening schedule

Locality	Day	Time
Attard Community Clinic	Alternate Wednesday	1:30pm – 5:00pm
Fgura Community Clinic	Alternate Thursday	8:00am – 1:30pm

Migrant Health Clinic

The COVID-19 pandemic has shed new light onto the health needs of migrants who are stationed in Malta’s Detention Centre. Realising their health needs went beyond COVID-19, complicated by an increased difficulty to access community services due to their deprivation of liberty, Primary HealthCare supported the establishment of the Migrant Health Service (MHS).

The MHS does initial reception health screening, quarantine and thereafter follow-up for any additional health needs and chronic conditions. Furthermore, it has forged alliances with Public Health, GU clinic and mental health services to provide a holistic approach to the needs within this new outreach for Primary Care.

This has led to adequate pathways for the provision of health in an otherwise inaccessible environment, slashing down inappropriate referrals and reaffirming the commitment of Primary HealthCare to provide its services to all corners of society.

Migrant Health Liaison Office

This office was established in view of the large influx of irregular immigrants arriving to Malta. The aim of this office is to help the migrants orientate themselves to our health care system to be able to seek support for their health needs, overcome language barriers and other challenges.

The objectives of the unit are:

- Liaising with government departments, agencies and other entities to address issues pertaining to migrant health
- Provision of health education sessions to migrants in open centres and in the community
- Assisting migrants in accessing health care through the right channels
- Delivery of the Training Programme for Cultural Mediators in Health Care
- In-service studies
- Education and training for health and social care professionals and university students on the topic of Cultural Issues in Health Care, Female Genital Mutilation, human trafficking, etc.
- Provision of translated materials (booklets and posters) for migrants on health topics
- Participation in EU programmes, seminars and workshops on the issue of migration and health
- Protecting girls at risk of FGM by providing the International Protection Agency (IPA) with evidence that girls coming from FGM prevalent countries have/have not been subjected to FGM. In the case that a girl has not been subjected to FGM a medical certificate will be issued for IPA to consider her case carefully as the girl will be at great risk of FGM if she will be sent back to her country of origin in case her claim for asylum will be rejected.

	Saturday	7:45am – 12:00MD
Paola	Monday to Friday	7:45am – 2:00pm
	Saturday	7:45am – 12:00MD

School Health Service

The School Health Service consists of a team of doctors and nurses who provide monitoring of primary child health and well-being as well as preventive care services in all State and Church Schools in Malta and Gozo.

The emphasis is on the early detection of developmental, growth, sensory and learning problems as well as physical disorders. To this end, pre-school developmental assessments are carried out before school entry, that is, at pre-Kindergarten level. These initial assessments, which are carried out in the parents' presence, involve taking a medical and family history, conducting a language, physical and social development assessment, height and weight measurement, as well as checking of vaccination records. Following this, further assessments and services are carried out throughout the school years. More information can be accessed on [School Health Services \(gov.mt\)](http://gov.mt)

Documentation:

Baby book, Consent Form from parent/ legal guardian, any other relevant documentation.

Outreach Services

Cardiology Clinic

The Cardiology Clinic within the Health Centres is an outreach of the Mater Dei Hospital Cardiology Department. The clinic is run by Cardiology Specialists as an extension of their Outpatients work. At present the Cardiology Clinic takes place in Mosta Health Centre on Mondays and Tuesdays between 8:00am and 12:00MD.

Chest Clinic

The Chest Clinic is organised and managed by professional staff from the Public Health Unit and is situated at Floriana Health Centre. Patients require an appointment to be seen. For further information contact the Public Health Unit by accessing links below:

<https://deputyprimeminister.gov.mt/en/health-promotion/idpcu/Pages/chest-unit.aspx>
<https://deputyprimeminister.gov.mt/en/health-promotion/idpcu/Pages/introduction.aspx>

Documentation:

Identification Card, Treatment Card and Referral Ticket.

Orthopaedic Clinic

The orthopaedic clinic caters for various musculoskeletal complaints and is clinically operated by orthopaedic consultants. At the clinic, joint infiltration treatment to treat inflammation and relieve pain is also administered. The patient may require follow-up sessions if deemed necessary by the specialist. Orthopaedic sessions are available as indicated in Table 39.

Documentation:

Appointment at the health centre is automatically initiated via a Ticket of Referral from MDH. The patients will be informed accordingly through an email and/or SMS.

Table 39: Orthopaedic clinics opening schedule

Health Centre	Day	Time
Mosta	Monday	3:00pm – 7:00pm
Floriana	Wednesday	3:00pm – 7:00pm
Paola	Friday	3:00pm – 7:00pm

4. Help Us to Help You

Our commitment depends on your support. We depend on you to:

- Do an appointment if this is indicated
- Be punctual for your appointment
- Inform the Clinic if you can't keep the appointment
- Bring identification records and any other documents as indicated

- Give the clinician all the details about your condition, any illnesses you may have had, past hospitalization, any medication being taking, any allergies and any other matter relating to your health.
 - Report unexpected changes in your condition to the clinician
 - Asking the clinician to explain again if you haven't fully understood the recommended course of action
 - Following the treatment plan recommended by the clinician
 - Taking responsibility for your actions if you refuse treatment or do not follow the clinician's instructions
- o *Provide feedback:* Our service is provided by a dedicated team of professionals but despite our best intentions we know that there is always room for improvement. We depend on you to point this out so that we can do better; o Communicate with us clearly and concisely in either Maltese or English;
 - o Treat our staff with the courtesy and respect that they deserve and with which you yourself should rightly expect to be treated.

5. Feedback & Complaints

We are committed to a 'Service of Excellence' and strive to bring about a continuous improvement of our service to you. We appreciate your feedback and any form of constructive criticism is very welcome as it would help us improve our services.

If you believe that we have made an error and/or that our staff has acted improperly or without the due level of care and attention, please contact us. In we would need your name and ID number together with dates and times of the incident so as to be able to investigate properly and come back to you. If you wish to remain anonymous, we will respect that, but the investigation would be limited, and we would not be able to give any feedback.

Feedback and complaints may be submitted through the following channels:

- Online:

by accessing our website at <http://www.primaryhealthcare.gov.mt> or by calling on 21231231/ 25576100.

- In person:

By calling the Administration of the relevant health centre

When making a complaint you should:

- » Provides us with your full name and ID card/ passport number, telephone/ mobile number (for feedback) and e-mail address if available (unless you wish to remain anonymous) and the place, date and time the incident happened.
- » Specify what the problem/case is, being as concise as possible; and
- » Provide any additional information that you think may help us in our investigation to resolve your complaint.

When addressing complaints, we will:

- » Guarantee your confidentiality within the circle of the investigating team but obviously your personal details may be needed to ask staff for statements so as to be able to relate to the incident;
- » Refer your case to the Client Support Centre and will send you an acknowledgement within 2 working days;
- » Carry out an investigation on the problem / case and conclude this as speedily as possible. If the requested information entails that an investigation needs to be undertaken, then the earliest we can give you feedback is after 10 working days where we will also inform you if the case has been concluded or that the investigating board needs more time. The customer care team will keep you updated about the progress.
- » We will contact you with a report on our investigation into your complaint in no later than two weeks unless we would inform you beforehand that we need more time for investigation

If you are not satisfied with how your complaint was handled you have the option of escalating your grievance through other channels such as the Ombudsman, the Malta Arbitration Board or the Courts of Malta.

6. Commitment to Continuous Improvement

With the aim of a Service of Excellence and continuous improvement in mind this Charter will be reviewed at least once every 12 months to measure our performance in terms of the standards set out in this Charter as well as how we meet your expectations.

The review process will be based on:

- Assessment based on the Malta Public Service - Quality Customer Service Guiding Principles
- Government policy
- Operational data (e.g. services offered, service delivery, etc.)
- Benchmarking
- Iso Certification 9001:2015 QMS
- Feedback

- Compliments/ Complaints
- Quality Service audits
- Mystery shopper programme

The results of the internal review process will be published and used as a basis for improving our service.

Quality of service standards relative to the services provided will be monitored and measured by an external governmental third-party. The results of such monitoring will be published in an annual report compiled by the People & Standards Division (Office of the Prime Minister). Such results will be the basis for the overall service improvement.
